

Application for the Master's thesis review

1. Research ethics education

With the objective of fostering a research environment where students can engage in their research with confidence and to rigorously prevent unethical practices such as data fabrication, all students of the Degree Program in Pure and Applied Sciences are required to take a research ethics training course.

University of Tsukuba offers two types of research ethics education: "Research Ethics e-learning APRIN e-learning program (eAPRIN)" and "Research Ethics e-learning 'eL CoRE'".

Please take "Research Ethics e-learning APRIN e-learning Program (eAPRIN)." (or "Research Ethics e-learning 'eL CoRE'") .

2. Plagiarism check

The thesis should undergo a plagiarism check using "iThenticate" under the supervision of the academic advisor.

note:

To confirm points 1 and 2 above, "Statement of Research Ethics" has been added to the application documents.

Please see ["The dignity of Knowledge \(Researcher's ethics\)"](#) and ["Research-Ethics Education"](#).
